ENGLISH COACHING INTENSIVE

CLIENT:

LOCATION:

DATE:

Introduction / Target - Goal:

Improve speaking competence and listening comprehension through simulated real-life situations. Everyday conversation practice and discussions utilizing staged business settings, presentations, case management, small talk – party situations, etc.

The target - goal will make your business appearance especially polished and professional.

Additional techniques will include: breathing exercises, self awareness techniques, rehearsals, etc.

The above activities will heighten the client's language awareness and effectiveness through on-the-spot coaching. Choosing the right words and expressions for the right occasions – so when the time comes the client will not be at a loss for words, correct pronunciation, intonation, space / body language, correct word phrases, expressions, cultural diversity, etc.

Tailored coaching for the professional is an invaluable investment that will pay long-term dividends.

Positive Experience – English Coaching for the Professional is a non-competitive exercise. The “Free –Flow” dialogue builds skill level in a non-stress atmosphere.

Following an intensive workshop, on-going monthly sessions are encouraged.
